

# Holistic Caring™

Cannabis Medicine Simplified

People are making great medicine. People are selling these medicines. But no one is interpreting how to use these as medicine for patients.  
That's what we do.

Holistic Caring Inc. is a 501c3 organization founded to provide free nurse line services to guide cannabis patients across the world. Top-tier dispensaries and CBD brands make it possible through their support.

The Holistic Caring Suite of Services provides coaching, training, media, and consulting packages for the Cannabis Community. Outsource your Clinical Care to us and provide your customers and communities with the most comprehensive and innovative programs and services available.
